

Roni Seikh

Kolkata, West Bengal, India

roniseikh2004@gmail.com — +91 6289505567 — GitHub — LinkedIn

PROFESSIONAL SUMMARY

Aspiring Data Scientist and AI Enthusiast with hands-on experience in Python, SQL, Machine Learning, Data Analysis, and Data Visualization. Completed multiple internships and real-world projects involving Exploratory Data Analysis (EDA), Predictive Modeling, NLP, and Streamlit deployment. Passionate about solving real-world business problems using AI and data-driven solutions.

EDUCATION

Course	Institution	Score / Year
Bachelor of Technology (CSE)	Brainware University	CGPA: 9.08
Higher Secondary (WBCHSE)	Rabindranath Institution	2023
Secondary Examination (WBBSE)	Rabindranath Institution	2021

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, JavaScript
- **Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Streamlit
- **Data Science Skills:** Data Cleaning, EDA, Feature Engineering, Predictive Modeling, NLP, Machine Learning, Multi-output Regression
- **Visualization & Tools:** Power BI, Excel, Jupyter Notebook, Google Colab
- **Web Technologies:** HTML, CSS, React JS
- **Other Tools:** Git, MySQL

INTERNSHIP EXPERIENCE

Data Analysis with LLMs Intern

Sep 2025 – Oct 2025

Vodafone Idea Foundation

Remote

- Explored large datasets and applied NLP techniques for conversational AI tasks
- Analyzed textual data to identify trends, correlations, and meaningful insights

Data Science Intern

Nov 2025

Axcentra

Remote

- Performed data cleaning, exploratory data analysis, and visualization on structured datasets
- Applied statistical and machine learning techniques to generate actionable insights
- Built predictive models and dashboards for business analytics

AI & Data Analysis Intern

Jun 2025 – Jul 2025

Shell India & Edunet Foundation

Remote

- Worked on AI and Green Skills-based analytics projects
- Developed data pipelines, performed feature engineering, and deployed ML models using Streamlit

PROJECTS

- **Netflix Dataset Analysis** | GitHub

- Analyzed 7,789 Netflix records to uncover trends in content type, genres, and audience ratings
- Performed data cleaning, feature engineering, and visualization using Pandas and Matplotlib
- Generated insights related to content growth and geographical distribution

- **Water Pollutants Prediction System** | GitHub

- Built a multi-output regression model using Random Forest Regressor
- Predicted pollutants including O₂, NO₃, NO₂, SO₄, PO₄, and Cl levels
- Implemented feature engineering, model evaluation (MSE, R²), and Streamlit deployment

- **AI-Powered Resume Screening and Ranking System** | GitHub

- Built an AI-driven system to automate resume screening using NLP and Machine Learning
- Ranked candidates based on skills, experience, and job relevance
- Used Python, Scikit-learn, TensorFlow, and Streamlit for deployment
- Implemented resume uploads, candidate ranking, and result export features
- Developed as part of the AICTE Internship on AI under TechSaksham (Microsoft & SAP CSR Initiative)

ACHIEVEMENTS & CERTIFICATIONS

- **Global AI Hackathon Finalist** – App Inventor Foundation (April 2025)

- Developed a multi-disease prediction web application using Python, Machine Learning, and Streamlit

- **Diploma in Web Development** – STP Computer Education (Dec 2023 – Dec 2024)

- Awarded A Grade for successfully completing a 12-month professional web development program

- **ISRO-IIRS Certification** (Feb 2025)

- Completed certification on Geodata Processing using Python and Machine Learning
