

# Roni Seikh

Kolkata, West Bengal, India

roniseikh2004@gmail.com — +91 6289505567 — GitHub — LinkedIn

## PROFESSIONAL SUMMARY

---

Motivated and detail-oriented Computer Science student with hands-on experience in Web Development, PHP, MySQL, React JS, and Python. Experienced in building full-stack web applications, integrating RESTful APIs, and developing responsive user interfaces. Strong understanding of frontend and backend technologies with practical exposure through internships and real-world projects. Passionate about problem-solving, scalable web development, and learning emerging technologies.

## TECHNICAL SKILLS

---

- **Programming Languages:** C, C++, Java, Python, PHP, JavaScript
- **Frontend Technologies:** HTML, CSS, Tailwind CSS, Bootstrap, React JS
- **Backend Technologies:** PHP, REST APIs
- **Database Management:** SQL, MySQL
- **Tools & Platforms:** Git, GitHub, Streamlit, Jupyter Notebook, Google Colab
- **Core Concepts:** Full Stack Web Development, API Integration, Responsive Web Design, Database Connectivity

## EDUCATION

---

| Course                                   | Institution              | Score / Year |
|------------------------------------------|--------------------------|--------------|
| B.Tech in Computer Science & Engineering | Brainware University     | CGPA: 9.08   |
| Higher Secondary (WBCHSE)                | Rabindranath Institution | 64.60%       |
| Secondary Examination (WBBSE)            | Rabindranath Institution | 78.43%       |

## INTERNSHIP EXPERIENCE

---

- **Web Developer Intern — CodeVocado** April 2025 – July 2025
  - Completed internship as a Web Developer using React JS, Python, and MySQL
  - Collaborated in a development team through daily stand-ups and code reviews
  - Developed frontend interfaces, integrated RESTful APIs, and managed database connectivity
  - Contributed to dynamic web application development and feature implementation
- **Web Development Intern — VaultofCodes** March 2025 – April 2025
  - Worked on frontend web development using HTML, CSS, JavaScript, and Bootstrap
  - Built responsive web pages and implemented interactive UI components
  - Developed and deployed project-based applications aligned with internship objectives
  - Presented final project demonstrating technical workflow and implementation strategy
- **AI Intern — TechSaksham Program — Edunet Foundation** February 2025 – March 2025
  - Completed AI internship under Microsoft & SAP CSR Initiative
  - Developed AI-powered Resume Screening and Ranking System using Machine Learning
  - Worked with Python, NLP, scikit-learn, TensorFlow, and Streamlit deployment

## PROJECTS

---

- **Online Voting System**

GitHub Link

- Developed a secure web-based voting system with separate user and admin panels
- Implemented election management, candidate handling, and live result dashboard
- Built one-time voting authentication and responsive UI using PHP, MySQL, and Bootstrap

- **Interactive Portfolio Webpage for Editkaro.in**

GitHub Link

- Designed and developed responsive portfolio webpage for a marketing agency
- Implemented category filters, animations, and responsive layouts using HTML, CSS, and JavaScript
- Optimized webpage functionality across desktop and mobile devices

- **AI-Powered Resume Screening and Ranking System**

GitHub Link

- Built AI-driven resume screening system using NLP and Machine Learning
- Developed candidate ranking system based on skills, experience, and job relevance
- Deployed web application using Python, TensorFlow, scikit-learn, and Streamlit

## ACHIEVEMENTS & CERTIFICATIONS

---

- **Global AI Hackathon Finalist — App Inventor Foundation**

April 2025

- Developed multi-disease prediction web application using Python, ML, and Streamlit
- Project Link: [GitHub Repository](#)

- **Diploma in Web Development — STP Computer Education**

Dec 2023 – Dec 2024

- Awarded A Grade for successful completion of professional web development course

- **ISRO-IIRS Certification**

February 2025

- Completed certification on Geodata Processing using Python and Machine Learning

## HOBBIES

---

- Learning new technologies and development tools
- Participating in tech events and coding activities
- Exploring AI, web technologies, and software development trends
