@Roni-Seikh

in Roni Seikh

SKILLS

- ❖ C/C++
- ❖ Java
- ❖ Python
- ❖ HTML, CSS, JavaScript, React JS
- ❖ SQL, MySQL
- ❖ PHP

EDUCATION

- ❖ B.Tech.(C.S.E.) | Brainware University CGPA: 9.08 | (2nd Year)
- ❖ XII (WBCHSE) | Rabindranath Institution 2023

EXPERIENCE

- ❖ **Web Developer Intern | CodeVocado** (April 2025 – July 2025)
 - Completed an internship as a Web developer using **React.js**, **Python**, and **MySQL**
 - Collaborated in a team through daily stand-ups and code reviews
 - Delivered **daily presentations** to communicate progress, demonstrate features, and receive feedback
 - Contributed to the design and implementation of dynamic web applications, integrating **frontend interfaces**, **RESTful APIs**, and **databases**
- ❖ **Web Development Intern | VaultofCodes** (March 2025 – April 2025)
 - Completed an internship focusing on front-end web development using **HTML**, **CSS**, **JavaScript**
 - Executed **weekly development tasks** aligned with learning goals and project milestones
 - Built and deployed a **final project**, applying front-end skills in a practical setting
 - Delivered a **final project presentation**, showcasing features, technical workflow, and implementation strategy
- ❖ **AI Intern | TechSaksham Program | Edunet Foundation | AICTE – Microsoft & SAP Initiative** (February 2025 – March 2025)
 - Completed an internship on **AI: Transformative Learning** with hands-on training, mentorship, and project work
 - Built and presented an **AI-powered Resume Ranking System** as the final project, completing all weekly milestones
 - Earned certifications from **Microsoft**, **SAP**, **AICTE**, and **Edunet Foundation**

ACADEMIC PROJECTS

❖ Online Voting System | [Link](#)

- Developed a secure web-based voting system with separate login panels for **users** and **admins**.
- **Admins** can create elections, add/edit candidates, and view live results via a responsive dashboard.
- **Users** can register, log in, and vote for **one candidate per election**, with voting restricted to one-time only.
- Implemented using **PHP**, **MySQL**, and **Bootstrap** for dynamic functionality and mobile-friendly UI.

❖ Interactive Portfolio Webpage for Editkaro.in | [Link](#)

- Designed and developed a responsive portfolio webpage for **Editkaro.in**, a social media marketing and video editing agency.
- Showcased diverse video categories (short-form, long-form, gaming, anime, ads, etc.) with creative UI features like filters, previews, and animations.
- Built using **HTML**, **CSS**, and **JavaScript**, ensuring full functionality across mobile and desktop devices.

❖ AI-Powered Resume Screening and Ranking System | [Link](#)

- Built an AI-driven system to **automate resume screening** using **NLP** and **Machine Learning**, ranking candidates by skills, experience, and job relevance.
- Used **Python**, **scikit-learn**, **TensorFlow**, and **Streamlit** to deploy a web app with resume uploads, candidate ranking, and result export.
- Developed as part of the **AICTE Internship on AI** under **TechSaksham (Microsoft & SAP CSR Initiative)**.

ACHIEVEMENTS

❖ Global AI Hackathon Finalist | App Inventor Foundation | [Link](#) (April 2025)

- Developed a multi-disease prediction web app using Python, ML & Streamlit.

❖ Diploma in Web Development | STP Computer Education (Dec 2023 – Dec 2024)

- Awarded **A Grade** for completing a 12-month professional Web Development course from **STP Computer Education**.

❖ ISRO-IIRS Certification (Feb 2025)

- Successfully completed a course about *Geodata Processing using Python & ML*.

HOBBIES

- Watching news and staying updated with current affairs
- Browsing the internet to learn new technologies
- Listening to aesthetic and instrumental music
- Participated in tech events and learning sessions
